

水泥電阻器(SQP)系列

POWER RANGE: 2W~40W

SQP TYPE

CEMENT FIXED RESISTOR

□ FEATURE

- Exceptionally small and sturdy, mechanically safe, Excellent electrical characteristic
- Tolerance of $\pm 5\%$ and $\pm 10\%$ are standard.
- Non-inductive type are available on request.
- Heat and flame resistance
- The materials used and the construction techniques ensure excellent flame resistance, arc resistance and moisture resistance as well as self-extinguishing capabilities, They will withstand the most rigorous loading test.
- As resistors in radio and television receiver, The hazardous conditions of smoking and reheat can be completely prevented by the proper choice of power resistors.
- For high resistance value, The winding core will be replaced by metal oxide film core (RS Type)
- Applicable specifications: EIA RS-344 and EIA RC-649
